Biocartis to Collaborate with Medical College of Wisconsin on Breast Cancer Gene Signatures

Itasca, IL, US, 24 March 2026 – Today, [Biocartis](#) announced that it has entered into a research collaboration with the [Medical College of Wisconsin](#) (MCW) to provide laboratory expertise and archived samples for the development of a rapid, sample-to-answer breast cancer gene signature test.

"Gaining access to rapid on-site testing to optimize breast cancer treatment for our patients is the goal of this project with Biocartis. We care for an inclusive patient population, and our health system spans both urban and rural hospitals, making MCW an ideal research partner for this collaboration," said **Nathan Ledebor, PhD, Chief of Clinical Pathology, Medical College of Wisconsin**.

"With this collaboration agreement, we are [expanding our work in breast cancer gene signatures](#) and gaining access to MCW's deep technical expertise and sample bank. This partnership helps to advance Biocartis' plan to bring testing closer to patients and reduce the time to optimal treatment in breast cancer," said **Roger Moody, Chief Executive Officer of Biocartis**.

The test in development is investigational and not yet available for diagnostic use.

About the Medical College of Wisconsin

With a history dating back to 1893, the Medical College of Wisconsin is dedicated to leadership and excellence in education, patient care, research, and community engagement. More than 1,600 students are enrolled in MCW's medical, graduate and pharmacy schools at campuses in Milwaukee, Green Bay, and Central Wisconsin. MCW's School of Pharmacy opened in 2017. A major national research center, MCW ranks in the top 1% of U.S. research institutions (National Science Foundation), is the largest research institution in the Milwaukee metro area and is the largest private research institution in Wisconsin. Annually, our faculty direct or collaborate on more than 3,800 research studies, including clinical trials. In the last 10 years, MCW faculty have received nearly \$2 billion in external support for research, teaching, training, and related purposes. Additionally, our more than 1,800 physicians provide care in virtually every specialty of medicine, annually fulfilling more than 4.8 million patient visits.
